

MANUFACTURER OF TRUCK MUDGUARDS, MUDFLAPS, COMPONENTS,
CUSTOMISED ACCESSORIES, LOAD SAFETY & COMPLIANCE PRODUCTS

PROUDLY AUSTRALIAN MADE

*"I make simple products and do it well...
some say I over engineer them, therein lies the quality."*

BOB HEPWORTH (17.01.39 – 25.05.16)
FOUNDER / DESIGNER / INNOVATOR

For over 30 years Truckmate® has provided Australian made, specialist spray suppression for the light and heavy vehicle industries. Designed exclusively in Australia, we are the leading supplier to many of the world's leading OEM truck manufacturers and leading trailer manufacturers in Australia. With over 25 lines, starting with the first injection moulded mudguard and hanger bracket in Australia, we are proud to be innovators not imitators. The Truckmate® range and customised products will meet all your spray suppression, load safety and compliance needs.

Australian owned and operated

From our beginnings in Silverwater and Concord we have been proudly Australian owned and operated. We truly believe that Australian made is best and our industry specialist staff are key to meeting our customers' needs with superior product knowledge for nation-wide applications. Our highly skilled staff offer reliable advice on the range of items we manufacture to meet regulatory requirements and the customisation options available to make your vehicle stand out.

Our customers are key

Truckmate® has a proud history of producing quality automotive parts and accessories for our customers. Our 'customer first' approach means we are constantly innovating to bring the best solutions to the market. We are always looking to improve our customer experience and will continue to partner with our customers to provide market leading solutions at competitive prices.

Let us help you

If you have a product enquiry or spray suppression solution you need assistance with, let one of our sales team members help you out.

To stay up to date with all Truckmate® products, please email your details to sales@truckmate.com.au

MUDGUARDS & COMPONENTS

MUDGUARDS

CODE	SIZE	INFORMATION
MG620	620mm wide 1240mm long 610mm high	Previously known as MG22
MG650	650mm wide 1240mm long 610mm high	
MG700	700mm wide 1240mm long 610mm high	New product exclusive to Truckmate® – coming soon

Want the highest quality, industry-leading suppression solution for your truck, fleet or trailer?

Truckmate® has been proudly manufacturing the industry's most trusted mudguards in Australia for almost 30 years.

Truckmate® – the preferred choice of the world's leading OEM, fleet operators and discerning truck drivers.

Our truck and trailer mudguards are injection moulded from the highest quality UV-stabilised, impact-modified polypropylene which is 100% recyclable. Built to suit all conditions and applications, our mudguards are manufactured with spray suppressant ribbing and an inbuilt track for attaching our additional brush spray suppression arch.

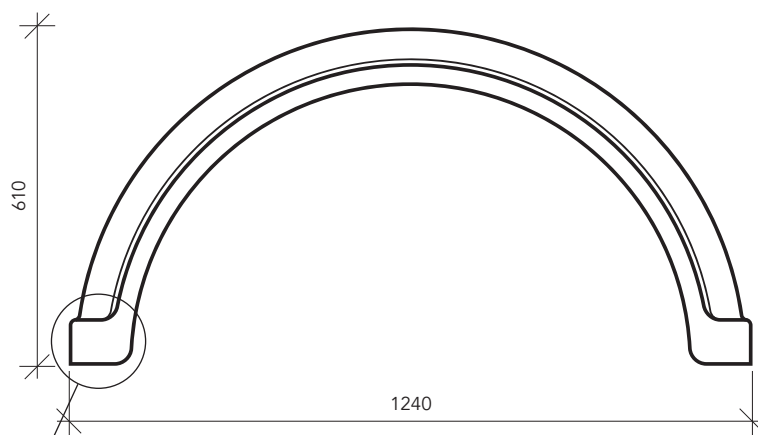

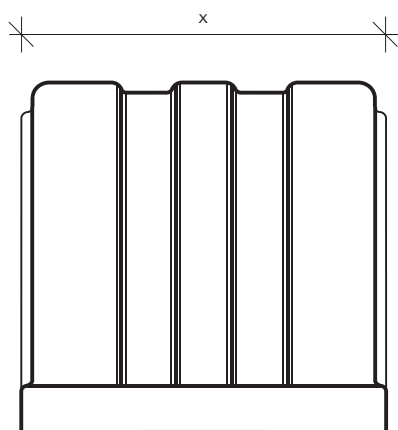

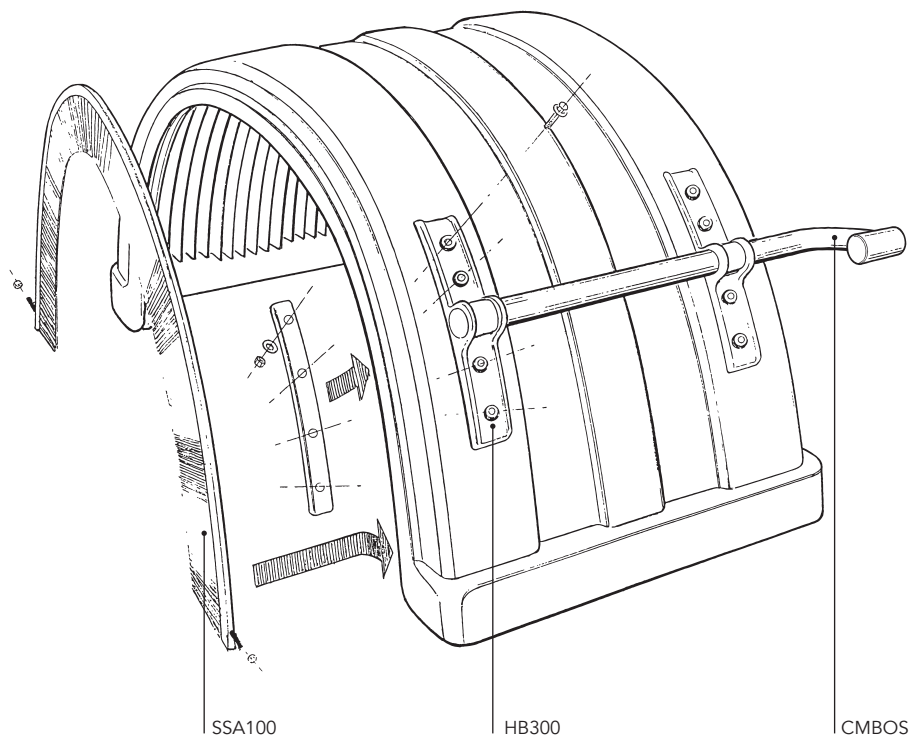

Need Corporate colours? Want your trucks to stand out?

We offer our mudguards in 12 standard colours; red (R), black (B), white (W), grey (GR), silver (S), yellow (Y), dark blue (DB), light blue (LB), dark green (DG), light green (LG), orange (O) and brown (BR).

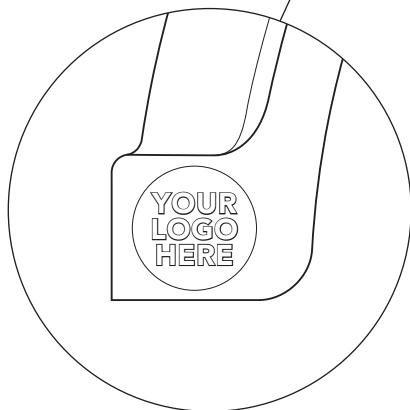

If your colour isn't on the list, we can work with you to develop a custom colour to match any application – subject to minimum order quantities.

Badge engineered mudguards available on request (minimum order quantities and tooling costs apply).

MG620: x = 620mm
 MG650: x = 650mm
 G700: x = 700mm

Truckmate® mudguard can be badge engineered with your logo

MUDGUARD MOUNTING HARDWARE & ACCESSORIES

Save time by ordering your mounting hardware and accessories at the same time as your mudguards. We stock a full range of mounting hardware and accessories to suit all mudguard applications.

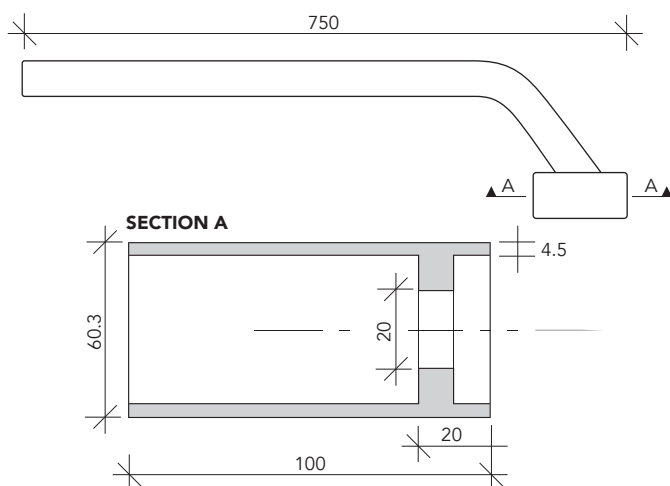

Unsure of what equipment you'll need?

Let our expert staff help you with your mounting accessory requirements.

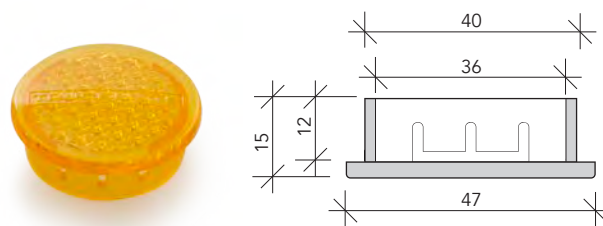

CHASSIS MOUNTING BRACKET – OFFSET TUBE

Steel tube curved to follow the contour of the mudguard, with single bolt mounting point. Fitted with reflector end cap. Available in zinc plated, chrome, powder-coated black or powder-coated red. Available in custom colour by request - POA.

CODE	SIZE	INFORMATION
CMBOS_Z	750mm long	Zinc plated finish
CMBOS_C	750mm long	Chrome finish
CMBOS_B	750mm long	Black powder coat finish
CMBOS_R	750mm long	Red powder coat finish

CHASSIS MOUNTING BRACKET REFLECTOR

Reflective end-caps designed to suit chassis mounting brackets (product code CMBOS and CMBA) are injection moulded from polycarbonate. Unique design refracts light and becomes visible when lit by vehicle headlights which increases side-on visibility of trucks and trailers.

Please note: all chassis mounting brackets including CMBOS and CMBA come fitted with reflective end-cap (product code REF) as standard.

Replacement reflective end-caps are sold in packs of 10.

CHASSIS MOUNTING BRACKET BOSSCAP

Bosscaps designed to suit chassis mounting bracket offset tube (product code CMBOS) are injection moulded from polycarbonate.

Available in black, silver or chrome-plated are sold in packs of 10.

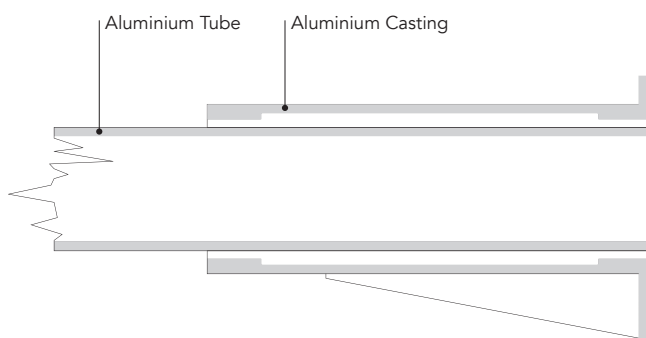

CODE	COLOUR	INFORMATION
REF	Orange reflective	Pack of 10
BCAP_B	Black	Pack of 10
BCAP_S	Silver	Pack of 10
BCAP_C	Chrome-plated	Pack of 10

CHASSIS MOUNTING BRACKETS – STRAIGHT TUBE

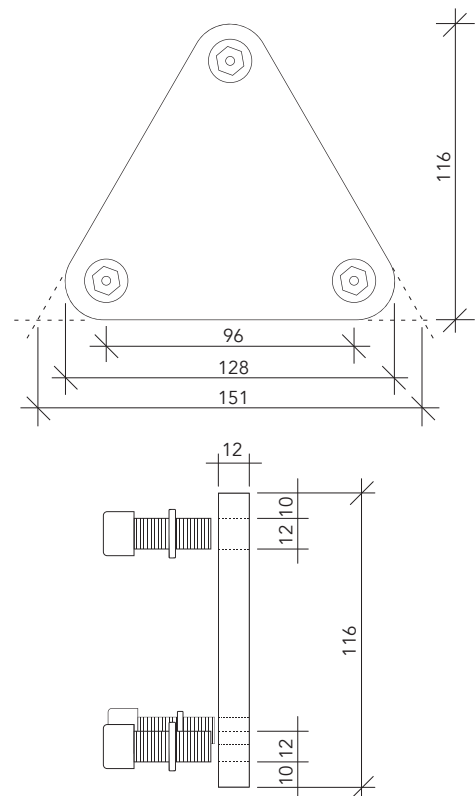

Straight aluminium tube with triangular flanged base bonded together with vibration-dampening polyurethane which mounts directly to the trailer chassis. Fitted with reflective end cap. Includes hardware.

CODE	SIZE	INFORMATION
CMBA_H	760mm long	Includes hardware

CHASSIS MOUNTING ADAPTOR (TO SUIT CMBA_H)

Triangular base plate made from 12mm zinc plated steel for attaching CMBA to tanker and trailer frames. Includes hardware.

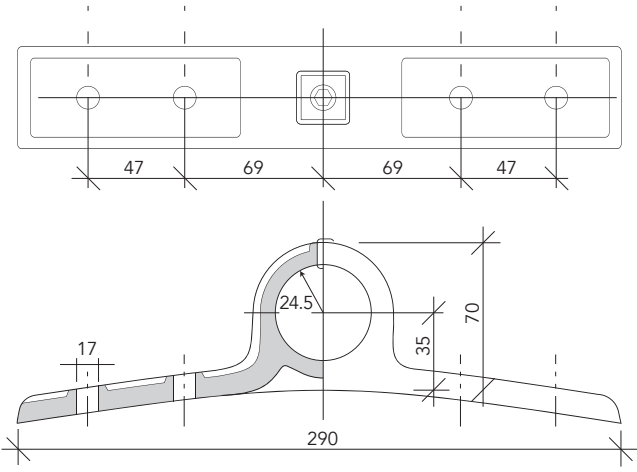

CODE	SIZE	INFORMATION
CMA	12mm deep	Includes hardware

MUDGUARD MOUNTING HARDWARE AND ACCESSORIES

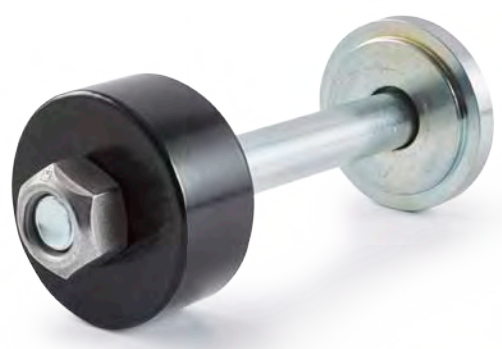

HANGER BRACKET

Mudguard mounting bracket designed to connect chassis mounting bracket (product code CMBOS and CMBA) to the mudguard (product code MG620/650/700). Injection moulded from high quality UV-stabilised nylon. Includes mounting strap for internal support. Available in grey and black. Includes hardware.

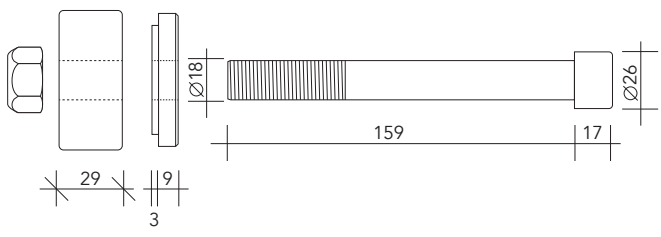

CODE	SIZE	INFORMATION
HB300_G	49mm (w) x 290mm (l)	Grey
HB300_B	49mm (w) x 290mm (l)	Black

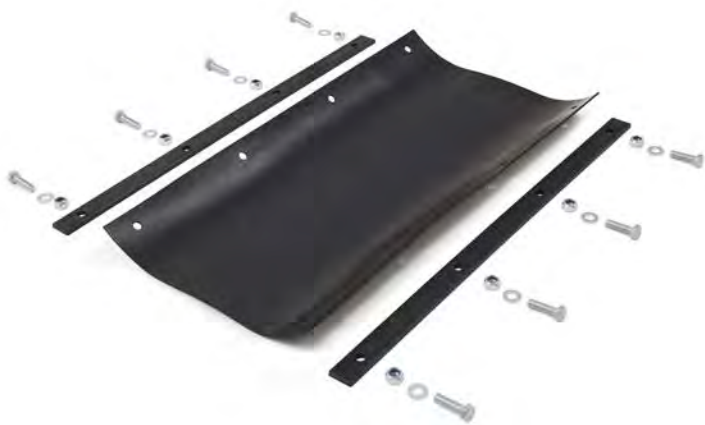

CMBOS SPACER KIT

Steel spacer used for guard adjustment and bracket stabilisation.

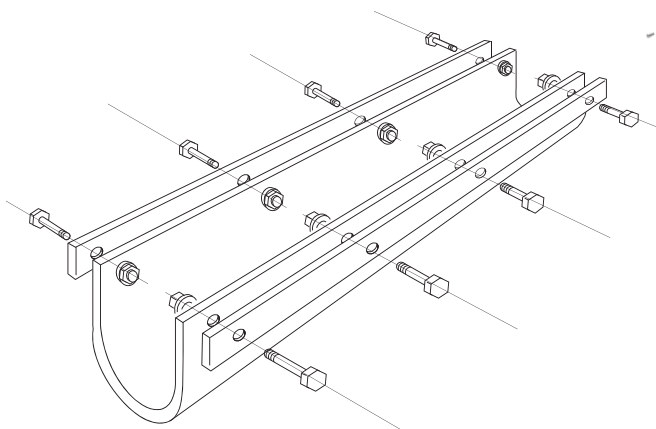

CODE	INFORMATION
CMBOS_SK	Sold as shown

LOOP KIT

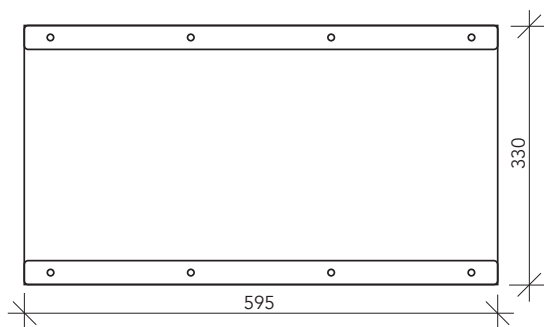

Black rubber sheet, connects two mudguards end to end to decrease spray between wheels. Made from flexible 3mm black rubber, comes complete with nylon mounting straps and mounting hardware to suit MG620, MG650 and MG700.

DRESS-STRIP

Stainless steel mudguard insert to enhance vehicle appearance. Includes hardware.

CODE	SIZE	INFORMATION
MGSSDS	86mm (w) x 1720mm (l)	Includes hardware

CODE	SIZE	INFORMATION
LK600	595mm x 330mm	Includes hardware

SPRAY SUPPRESSION AND MOUNTING EQUIPMENT

Australian truck drivers face some of the toughest road conditions in the world. Truckmate® supply a range of spray suppression solutions to meet these conditions.

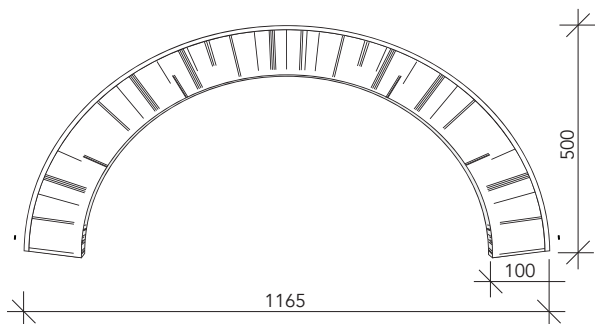

Need guidance on the best solution possible for your vehicle?

Let our expert staff guide you through our various solutions.

SPRAY ARCH

Arched stainless steel carrier with 100mm polypropylene filament skirt – to suit Truckmate® mudguards (product code MG620/650/700).

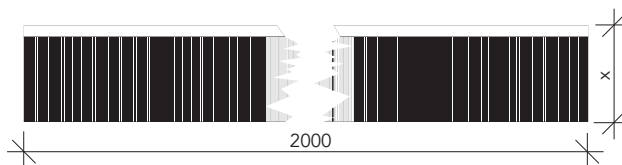

CODE	LENGTH OF FILAMENT STRANDS
SSA100	100mm

RIGID SKIRTING

Straight stainless steel carrier with 100mm or 175mm polypropylene filament skirt – sold in 2 metre lengths.

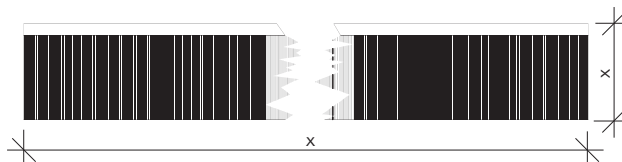

SS100: x = 100mm / SS175: x = 175mm

CODE	LENGTH OF FILAMENT STRANDS	SKIRT LENGTH
SS100	100mm	2 metre
SS175	175mm	2 metre

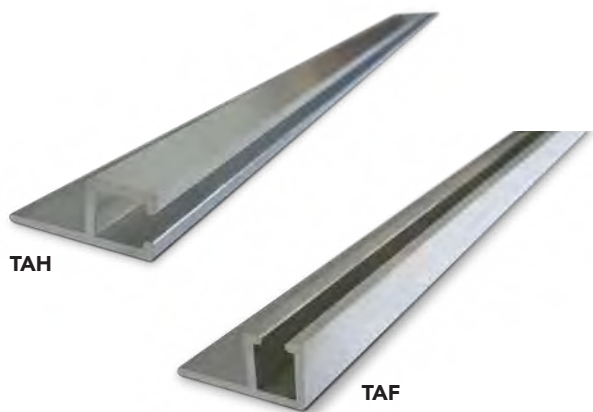

FLEXIBLE SKIRTING

Polypropylene filament skirt with flexible carrier. Suits aluminium extrusion (product codes TAF and TAH).

CODE	LENGTH OF FILAMENT STRANDS (x)	SKIRT LENGTH (y)
F75	75mm	30m roll
F100	100mm	30m roll
F175	175mm	2m length

MUDFLAPS & COMPONENTS

Truckmate® produced its first PVC mudflap in 1983 and continues to supply most of the biggest names in the Australian trucking industry.

Our customers keep using our quality products because we have the best performing mudflaps in a range of sizes and styles to suit your needs.

Manufactured fully in-house in Sydney Australia from premium raw materials – Truckmate's quality PVC mudflaps have been trusted to go the distance on hundreds of thousands of trucks across the country and overseas.

All of our monogrammed and universal mudflaps are injection moulded from UV-stabilised flexible polyvinyl compound (PVC) which is 100% recyclable. They are available in standard industry sizes to suit all types of transport vehicles.

Rigid anti-spray mudflaps and raw sheet, meets all other small truck and truck-trailer applications.

MONOGRAMMED AND 4x4 MUDFLAPS

MONOGRAMMED MUDFLAPS

Let Truckmate® turn your mudflap into an advertisement for your business with custom-designed mudflaps.

Manufactured to the highest standards, our monogrammed mudflaps can be made-to-order with your branding – in your corporate colours! Our premium injection moulding and printing processes ensure you receive a quality, long-lasting product.

Supply your own artwork or let our highly skilled in-house design staff create a suitable design. Set on plain back mudflaps or anti-spray mudflaps, our monogrammed mudflaps can be customised with your logo, text and border raised and printed with one or more colours.

Custom colours, multi-coloured logos and screen printing available. Please call and speak with one of our helpful team members. Design and tooling costs apply – POA.

Please note: minimum quantities required;

50 per order for mudflap sizes: 0624, 1218, 1317, 1818, 2418, 1422, 1324, 1524, 2424 and 3024.

100 per order for mudflap sizes: 1008, 1009, 1112, 1209, 1409 and 1412.
